

WRIGHT ON! COLOR & PATTERN

There are nearly 85,000 square feet of carpet, designed just for Monona Terrace by Project Architect Anthony Puttnam. You can't find this carpet anywhere else!

Mr. Puttnam used different parts and sizes of circles to create a special pattern that repeats over and over.

Color is also an important choice a designer makes, because color affects us in different ways. Blue, green, and purple are "cool" colors that have a calming effect. Red, yellow, and orange are "warm" colors that are energizing. The color palette of Monona Terrace's carpet consists of warm harvest shades of oranges, golds, and reds.

Design your own carpet pattern in the space to the right. Then use markers, crayons or colored pencils to add your favorite colors.
